Career Objective

Passionate React.js and React Native Developer with strong skills in HTML, CSS, JavaScript, and Tailwind CSS, focused on building responsive and user-friendly web and mobile applications. Experienced in API integration, state management, and reusable component-based architecture for scalable and maintainable code. Skilled in performance optimization, clean UI design, and delivering seamless cross-platform user experiences. A quick learner with strong problem-solving abilities, eager to contribute and grow as a Frontend and React Native Developer.

Skills

Frontend	React.js, React Native, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
Mobile Development	React Native CLI, Expo, Android App Development, Cross-Platform UI
Backend	Firebase (Authentication, Firestore, Realtime Database), Node.js , Express.js , MySQL , PostgreSQL
Tools & Technologies	Git, GitHub, REST APIs, EmailJS, Razorpay Integration
Frontend Tools	React Router, Redux, Context API
Additional Skills	Responsive Design, API Integration, Component-Based Architecture

Technical Experience

Front-End Developer **February 2024 — Present**
Q-Techx Solutions *Tiruppattur, Tamil Nadu*

- Developed responsive web and mobile applications using React.js, React Native, JavaScript, Tailwind CSS, and Firebase.
- Built reusable component-based architecture with real-time database integrations for scalable applications.
- Followed Agile development practices using Git and GitHub for version control and team collaboration.
- Ensured cross-platform compatibility, mobile responsiveness, and performance optimization across applications.
- Improved user experience through clean UI design and seamless frontend interactions.

Projects

Multi-Domain Web Applications **React.js, Firebase, Tailwind CSS**

- Developed and deployed multiple responsive web applications including Kavi's Dry Fruits (E-commerce), Restaurant Ordering System, Gym Management System, Car Service Booking, Dress Shop, Hospital Management System, and Supermarket platforms.
- Built scalable and user-friendly applications with features such as product filtering, dynamic search, authentication, real-time cart management, booking systems, and role-based admin dashboards.
- Used React.js, JavaScript, Tailwind CSS, and Firebase for frontend development, database management, and authentication systems.

Mobile Applications **React Native, Expo, Firebase**

- Developed cross-platform mobile applications including TrackFina Admin, Parcel POS, Car Service Booking, Gym App, and Supermarket (User & Admin) applications.
- Integrated Firebase and third-party APIs for authentication, booking systems, POS billing, inventory management, and role-based access control.
- Focused on reusable component architecture, seamless navigation, high performance, and responsive cross-platform UI development using React Native CLI and Expo.

Education

Master of Computer Applications (MCA), *K.S.R College of Engineering (Autonomous)* 2021 — 2023
Tiruchengode, Tamil Nadu *GPA: 8.19*

Bachelor of Science in Mathematics (B.Sc Mathematics), *Mazharul Uloom College* 2018 — 2021
Ambur, Tamil Nadu *GPA: 7.4*

Activities

- Participated in the Full Stack Development Program, December 06 – December 13.
- Completed the Web Development Course, June 2022.
- Completed the "Introduction to SQL" course at Skill Slash, January 2023.
- Completed the "React JS" course at Senchola Technology, January 2024.
- Participated in various Web Development and Programming Workshops.
